Moeller's NEW Direct Fill The Compliant, **Low-Cost** Option

Manufactured from strong, glass-filled nylon, Moeller's Direct Fill is durable, sturdy, and non-corrosive. Unlike metal fills, it does not require grounding!

- Complies with CFR40 and ABYC H-24 permeation, operation, and re-fueling regulations, 4 to 10 gpm
- Compatible with E-10 fuels
- Meets USCG CFR33 requirements, including fire testing
- Tethered cap
- Complements Moeller Diurnal Valves
